TECHNICAL SKILLS

Core Stack: Nuxt.js, Vue.js, JavaScript, HTML5 / CSS3, Bootstrap

Integration: REST API Creation, API Integration, WordPress

Learning: React Native, TypeScript **Tools:** GitHub, VS Code

PROFESSIONAL EXPERIENCE

Frontend Developer — Welfog Internet Private Limited, Jaipur

December 2024 – Present

- Build and maintain admin and buyer-facing panels in Nuxt.js, integrated with REST APIs
- Developed Staff Attendance Panel, Welfog Admin Panel, and Report Center dashboard
- Built responsive UI with HTML, CSS, Bootstrap; currently learning React Native

Front-End Developer Intern — The Brand Chapter, Jaipur

May 2024 – November 2024

- Developed and customized WordPress websites for clients using themes, plugins, and page builders
- Applied HTML and CSS for custom styling, responsive design, and cross-browser compatibility

PROJECTS

Buyer Project — buyer-project.netlify.app | Nuxt.js, REST API, JavaScript

- Full storefront with category filters, wishlist, cart, login — wired to live product database

Scholar MS — school-project-bay-theta.vercel.app | Nuxt.js, Nitro, MySQL, Tailwind

- School management system — students, classes, attendance, exams, fees, results with JWT auth

Food App — food-opal-seven.vercel.app | Nuxt.js, HTML5, CSS3

- Food ordering interface with reusable component system and shared layout
